The 4 C's of the New Music Biz

Q: What's so new about the "New" Music Biz?

A: Nothing, really. You just do the work of organizing your music career yourself, instead of waiting for a "Prince Charming" record deal.

Notice that I said that you organize your career. That doesn't mean do everything yourself. It means GET HELP organizing it.

The 4 C's of the New Music Biz

“The 4C's of The New Music Biz” is my basic formula for explaining the crucial pillars that support a musician or band's ability to make money:

$$**C + C + C = C**$$

The 4 C's of the New Music Biz

$$C + C + C = C$$

Create + Capture + Connect = Cash

As you will soon see, this formula can be used for any product, not just music. In other words, **if you are a musician or other artisan with a product to sell, then you are *also* an entrepreneur growing a small business.**

The 1st C of the New Music Biz

CREATE:

The creation pillar is your foundation, and therefore your most important area of focus. When you are working in your creation pillar, **you are creating songs, merchandise, and/or other works of art. However**, this mode also includes:

- Developing a compelling live show
- Crafting your image
- Creating a Business Entity
- Developing your systems/processes
- Setting your goals
- Creating a marketing plan
- Building your team
- Creating your product/merchandise line

Please note that you do not have to work on these item at the same time. Most of these areas will continue to be tweaked over the life of your career.

The 2nd C of the New Music Biz

CAPTURE:

When you are working on the Capture pillar of your career, you are taking a good look at how you bring new fans into your world.

Get into the regular habit of asking yourself:

- Does the performance of your music pull people in? Is it compelling?
- What online and offline systems do you use to capture the contact information of prospective fans?
- Can you give away something in exchange for email addresses online?

If you make collecting new fans a goal, then you will reach it.

The 3rd C of the New Music Biz

CONNECT:

- The CONNECTION pillar is when your area of focus is on consistent communication with your fans, including newsletters, blogs, and social networks.
- Let people know when you have a gig, but also share your creative process and inspirations.

The 4th C of the New Music Biz

CASH:

- When you are focused on the CASH pillar, well, you're focused on how your business is making money! This final pillar is built upon the previous C's (Create, Capture, and Connect). Give proper attention to those pillars, and you will make CASH!
- Once you start building your database/email list, you will have permission to contact your fans over and over, to invite them to your shows, as well as promote your work. Musicians often add a product line, such as t-shirts, which they can also promote at shows and via their newsletter (feel free to borrow this idea if appropriate).

P > T > F > A = R

- Your **PROGRAMMING** leads to your **THOUGHTS**.
- Your **THOUGHTS** lead to your **FEELINGS**
- Your **FEELINGS** lead to your **ACTIONS**.
- Your **ACTIONS** lead to your
